

Adam Blank / W214016890-project-1

This is your Edge Impulse project. From here you acquire new training data, design impulses and train models.

IMAGES

+ New tag

Getting started

Start building your dataset or validate your model's on-device performance:

Add existing data

Collect new data

Upload your model

Start with a tutorial

Not sure where to start? Follow a tutorial to build your first model in just minutes!

Motion: Gesture recognition

Images: Object detection

Audio: Audio classification

About this project

Add README

Download block output

TITLE	TYPE	SIZE	
Uploaded pretrained model (model.tflite)	TFLite file	3 MB	
Pretrained learn model	TensorFlow Lite (float32)	3 MB	

Performance settings

Use GPU for training

Enterprise performance ?

Job limit (minutes)20?
